(U. N. S. Staff Correspondent)

HELSINKI, March 8.—(INS)—The Finnish government decided today to send a delegation to Moscow to discuss Premier Stalin's demand for a military pact.

Personnel of the delegation may be announced tomorrow.

HELSINKI, March 8.—A highly reliable authority said today that Finland definitely has decided to send a delegation to Moscow to discuss Premier Stalin's demand for a military pact.

This source said that a six to eight-man delegation will be appointed within two or three days.

It will be composed of representatives of various political parties, plus a staff of military and economic advisers.

The Foreign Affairs Committee of the cabinet met with President Dr. Juho Paasikivi at the presidential palace.

Confer At Palace

Serious in appearance, the officials drove to the palace in limousines and were ushered in immediately.

In contrast with the springlike weather of the past week, the day was cold, cloudy and blustery.

According to best information, the Finnish government will draft its reply to Stalin immediately now that decision has been reached.

It will state merely that Finland is ready to discuss the problem and

The Walking Man radio contest was ended on Saturday night when Mrs. Florence Hubbard of Chicago, Ill., named the walking man as Jack Benny. Newspapers across the nation had been speculating publicly for the past week that the identification of the walking man would show him to be Mr. Benny.

Charlie McMullen of West Euclid avenue, reports that during the week-end, a cat caught a ground-squirrel on his place. The feline decided to play with the 'greeny' for a while, near a peach tree. Watching its opportunity, the little fellow slipped away, and was seen up the tree. The cat followed, but the squirrel got to the end of a limb, dropped to the ground, and in 'no time' was atop a house nearby. Pussy gave up the chase.

A consignment of new buses going through the city were attracting more than their share of attention. The buses were equipped with the front exit doors on the left hand side of the driver with right hand drives in effect on the vehicles. Evidently the consignment was headed for England as they drive on the opposite side of the street than Americans.

Lawyers Of Four Counties Gather At Banquet Here

You could have tossed a rock through any window of the New Castle Country club Saturday afternoon or evening and hit a couple of lawyers. The place was full of them; not only lawyers from the Lawrence County Bar, but some 75 visiting legal lights from Beaver, Butler and Mercer counties. It was the annual banquet of the Lawrence County Bar Association.

The banquets are always a success but this one had a little something added it seemed. The seminar in the afternoon concerned some-

thing about which the lawyers were interested, the dinner was a turkey sonnet and Cy Hangerford was at his usual form with his caricatures and patter.

The seminar in the afternoon was presided over by Assistant City Solicitor Robert Jamison. He introduced Assistant City Solicitor Abraham Wernick of Philadelphia who is in charge of tax matters for that city.

Thorough Probe Of Marshall Plan Funds Need Seen

Sen. Bridges Says Investigation To Be Made On Appropriations

DELAY IS SEEN IN FINAL ACTION

By WILLIAM THEIS
(U. N. S. Staff Correspondent)

WASHINGTON, March 8.—Sen. Bridges (R-N.H.), chairman of the Senate Appropriations Committee, promised a thorough investigation of Marshall Plan needs today regardless of what amount is authorized by Congress.

Bridges said he will "hold fire" on the controversy over the dollar-size of the European recovery program until his committee sits down to appropriate the funds.

The Senator added that he is considering launching his hearings on ERP before the authorizing legislation is enacted into law, now regarded as unlikely by the Administration's April 1 deadline. He explained:

To Go Into It Fully

"I'm trying not to take a prominent position on the bill now because I want to be free to go into it fully when the appropriation comes before our committee. We intend to go into all of these items and scrutinize them carefully, something it was not possible for the Foreign Relations Committee to do."

Proponents of the five billion 300 million dollar aid bill are confident they "have the votes" to defeat any amendments to reduce the amount or drastically alter the program—and to pass the bill in the Senate. But they see little chance now of the measure becoming law by April 1.

Speaker Martin (R) Mass. flatly predicted that the legislation would not meet the deadline suggested by Secretary of State Marshall.

New Political Crisis In France

Bid By General DeGaulle For Return To Power Is Disturbing

PARIS, March 8.—(INS)—France faced a grave political crisis today following a bid by General DeGaulle for immediate return to power.

The wartime leader of French resistance called on the United States to furnish military and economic aid to a French-led union of European democracies aimed at halting communist expansion.

De Gaulle's followers of the national assembly joined with the communists in efforts to unseat Schuman's middle-of-the-road government.

They took their cue from their leader. In a demand for vigorous anti-communist action, DeGaulle bitterly attacked the Schuman regime, declaring:

"Events make it necessary to delay no longer. Why prolong a sys-

De Valera Back In United States

Former Prime Minister Of Ireland Lands At New York Today

NEW YORK, March 8.—(INS)—Eamon De Valera, for 16 years Prime Minister of Ireland, came back to the land of his birth today.

Ireland's beloved "Dev"—who was born 65 years ago on the site of New York's Chrysler building—arrived at LaGuardia airport at 5:00 a. m. EST this morning.

In an informal conference with newsmen, the austere looking Irish statesman—whose stern appearance belies his friendly, pleasant manner said:

"The Irish people are not favorable to Communism."

Asked what he suggested could be done to halt the spread of world Communism, the tall, bespectacled De Valera, chuckled and said:

"If I could settle that, I'd be quite a person."

Although refusing to make any predictions regarding the present Irish government's attitude toward the Marshall Plan, De Valera said that during his tenure, he sought to have Eire cooperate in European recovery, so long as it was compatible with Ireland's future.

Highway Deaths Lower

HARRISBURG, March 8.—(INS)—State police headquarters reported deaths on Pennsylvania's rural highways dipped more than 20 per cent during January and February.

Ninety-eight fatalities were reported during the 60 days, police added, a decline of 25 under the same period in 1947.

Forty-two persons lost their lives in highway accidents in January compared with 74 a year ago.

Communist Threat Now Faces Austria

VIENNA, March 8.—(INS)—Austria was faced today with a communist threat to make the country "walk the path of Czechoslovakia."

The warning came from communist leader Karl Altman who quit the Austrian cabinet last November.

Even as Altman issued his statement, Ferdinand Graf, security secretary, said that communist agents "at home and abroad" are preparing for widespread agitation in Austria.

Graf pleaded for Socialists to reconcile their differences and join forces with the Catholic People's party "for the defense of Austria."

Fears Peace Treaty

Altman charged that the government fears a peace treaty, because they were afraid of what would happen if allied troops left the country.

He asserted that the communists are "the only force fighting uncompromisingly for 'Austrian sovereignty'."

The communist leader warned: "As soon as the troops are gone, Austria will be a puppet state."

Five European Nations Plan Pact

Move Toward Treaty For Basis Of Western Union Of Europe

MOST PROPOSALS ARE ECONOMIC

BRUSSEL, March 8.—(INS)—Five European nations moved swiftly today toward completion of a treaty designed to form the basis of a Western Union of Europe.

At this morning's meeting in Brussels, a committee representing Belgium, the Netherlands, Britain, France and Luxembourg was appointed to draw up the text of articles already agreed upon.

Most of the clauses are believed concerned with economic problems.

However, International News Service has learned from reliable sources that the following proposals will also be in the draft treaty:

A Franco-British plan for the common defense of the colonies of member nations.

A plan for the conciliation of all disagreements arising among the five powers.

The drafting committee will refer the completed text of the treaty to a full session tomorrow.

Urges Military Aid For China

Says U. S. Forces Should Go To China To Equip, Train And Direct Chinese Troops

WASHINGTON, March 8.—(INS)—Lowell R. Rooks, director general of UNRRA, urged congress to send American forces to China to "equip, train and direct, even down to tactics and strategy," troops of Generalissimo Chiang Kai-shek.

The head of the relief organization told the house foreign affairs committee that with military aid, economic assistance to China would fall of its purpose.

Needs Military Aid

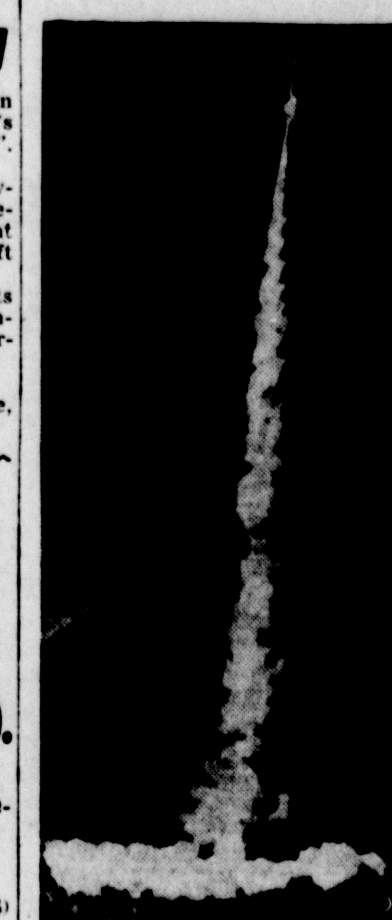

Rooks testified on President Truman's proposal for 570 million dollars in economic, non-military aid to China. He said:

"Unless the Chinese government is assisted in its military effort to the extent that it can win the war, the economic situation there can never be satisfactory. There should be no hesitation in introducing into the Chinese government American forces to the extent necessary to equip and direct, even down to tactics and strategy."

Rooks declared that China is "in a very grave situation."

He emphasized that to aid the Chinese "we should assist with military supplies and munitions of all kinds."

Jewish Leaders Hail Merger Of Palestine Forces

By BENN FELLER
(U. N. S. Staff Correspondent)

JERUSALEM, March 8.—Jewish leaders today hailed the newly-achieved unity of Haganah, official Jewish agency military arm, and the hitherto-underground Irgun Zvai Leumi as "the best news since the end of the war."

Joint action by the two groups will place an estimated 40,000 Jewish fighters in the front line against a threatened all-out Arab offensive.

A Jewish leader commented that the Haganah-Irgun pact puts an end to "fratricidal strife, which caused not only dissipation of forces, but a running canker in the heart of the community which disrupted families."

May Prod Stern Gang

Irgun's move in joining with Haganah will probably prod the Stern gang into following suit quickly. A high-ranking Jewish agency executive denied reports that the Sternists have participated in the negotiations for unity.

It was said that Irgun will form an autonomous brigade in the Jewish army which is committed to act only after prior approval of the army high command.

Both Haganah and Irgun were still conferring on the selection of the high command.

Their action came amid reports of fresh Arab infiltration into the Holy Land and indications that large-scale military action may be in the offing.

Urges Red Cross Workers To Make Greater Effort

Chairman Harry Helmick urged division leaders and workers in the Red Cross campaign to make a more concentrated effort in their solicitation drive this week.

"Although the campaign has not yet been intensified, reports from all the divisions are lagging and I wish to urge all the workers to step up their canvass activities this week."

The next report will be given Friday at 4 p. m. in the chapter house, N. Beaver street. A considerable increase in the total is expected by that time. The goal this year is \$35,000.

Great Powers In Conference On Palestine

U. N. Task Of Carrying Out Palestine Partition Plan Under Consideration

WILL DECIDE IS PEACE THREAT EXISTS

By PIERRE J. NUSS
(U. N. S. Staff Correspondent)

LAKE SUCCESS, N. Y., March 8.—The United Nations task to carry out the Palestine partition plan shifts into high-gear with the launching of a ten-day conference by the great powers.

Representatives of France, China, Russia and the U. S. will meet informally today in the offices of the Soviet Union.

A fifth member of the great powers, Sir Alexander Cadogan, will appear "on call" with the understanding that each attendance is in an advisory capacity only and not as an active representative of the Big Five.

The initial session of the great powers is expected to be confined to preliminary explorations.

The eleven-nation body also is slated to resume discussion of the Kashmir question.

These talks were suspended a month ago to permit the Indian delegation to return home and consult with the government.

Faced With Big Task

The great-power Palestine consultation is faced with the problematic task of blueprinting a course of action to be recommended to the U. N. Palestine commission by the Security Council.

The most important question to decide is whether a peace threat exists in the Holy Land. Another is the problem of whether an international police force should be set up.

The third is to decide whether a Jewish militia should be provided before Britain lays down the mandate, and whether the U. N. should appeal to member governments to lift their embargoes on arms to factions not defying the General Assembly resolution on partition.

Demand Concrete Program

U. S. spokesmen indicated that Warren R. Austin intends to insist on clear understanding at the opening of the conference.

Congress May Force Showdown

To Demand Release Of Confidential Data On Dr. Edward U. Condon

WASHINGTON, March 8.—(INS)—House Speaker Martin (R) Mass., indicated today that Congress may force a showdown with President Truman over the administration's refusal to release confidential data on Dr. Edward U. Condon.

This development came as it was disclosed that four "mystery" witnesses will be questioned behind closed doors tomorrow by a House Un-American Activities Subcommittee which accused Condon of associating with Soviet agents.

Condon, who also was termed "one of the weakest links in our atomic security," denied the charges and requested an inquiry by the Joint Atomic Energy Committee which may act on the matter today.

ing meeting that a concrete program for the enactment of partition must be worked out. The support of France for a positive blueprint on partition is fair. The attitude of China is lukewarm and leans toward a disinclination to endorse the partition plan.

Britain continues to insist that under no circumstances will she allow herself to be drawn into further commitments.

The role which Russia intends to play is not clear. Aside from supporting the U. N. partition plan as such, Gromyko has given no inkling on whether the Soviet Union will join an international force for Palestine.

The general belief is that Russia would welcome on her own terms—a chance to put Soviet troops into the Holy Land.

Act 481 of the 1947 General Assembly was the particular tax legislation under discussion at the seminar and he went into every phase of it. Many questions were asked and answered and to the lawyers present, who are counsel for various municipalities the seminar was valuable.

Turkey a la Blackstone
The turkey dinner was "a la Blackstone," the usual procedure for a Lawrence County bar banquet. The turkeys, roasted to a turn, were paraded into a fanfare of slip horn music (trombone to you) and the carving and serving were done by lawyers. The eating was also done by lawyers plus a few fortunate guests.

President Mont L. Alley presided at the program which followed the meal. It seems hard to believe but there were no speeches. President Alley asked Judge James A. Chambers to introduce the featured guest of the evening, Cy Hungerford, noted Pittsburgh cartoonist.

Cy was never better. He pictured some of the things he saw in his recent European tour, and interspersed his drawings with some interesting comment. A number of the lawyers present were singled out by Mr. Hungerford for caricaturing and those caricatures will probably be found next to "Wigmore on Evidence" in some law offices in these parts.

A special musical feature was introduced by Maestro Clyde Shumaker, the district attorney of Butler County in the form of an instrumental trio. These legalistic tools added some merriment and a little music to the occasion.

The committee in charge of the arrangements consisted of City Solicitor Robert M. White at chairman with Attorneys Charles V. Ross, and Charles Dlugogensky serving with him.

Arrested for the fatal shooting was Rudolph Bodnar, 43, himself an admitted former numbers man. Bodnar said he only intended to scare Riello who owed him \$440 on a "hit" number. He said Riello had "welched" and that the gun went off accidentally. He was charged with murder.

Harry Hing, 56-year-old Chinese laundryman was shot three times while he fled from a holdup attempt Friday night. Captured in a gunfight with police, his assailants are being held on charges of armed robbery and felonious shooting.

D. A. R. Hears Book Review Given By Mrs. E. O. Trescott

An audience of several hundred members of Lawrence chapter, Daughters of the American Revolution, and guests Saturday afternoon in the auditorium of Central Presbyterian church heard a delightful review of Sir Philip Gibbs' autobiography, "Pageant of the Years" by Mrs. E. O. Trescott of Cleveland. This book, not yet published in this country, by one of England's outstanding journalists and was corresponded during World Wars I and II, gives a fascinating panorama of the life of a cultured English family around the turn of the century and leads on into accounts of events of world importance as viewed by a reporter who has both "a passion for truth and a passion for peace". Mrs. Trescott said in her presentation.

Difficult to compass in a short review because the book is one of more than 500 pages, and sets forth many of Sir Philip Gibbs' views on such matters as the importance of home life as a bulwark to a nation, a warning against the current tendency to return to feudalism based on a willingness to settle for security at the price of freedom. His

comments on war, Mrs. Trescott said, are largely philosophical and the book ends with a plea for people of the world to discard nationalism.

Proceeds of the afternoon went toward the chapter's pledge to the Jameson Memorial hospital expansion fund.

Regent Mrs. H. E. Goider presided and Mrs. Alvah M. Shumaker, program chairman, introduced the speaker.

The program opened with a 15-minute organ recital by Mrs. Edward Brown, organist of Central church, followed by invocation led by Mrs. Dale Mullen.

Miss Katherine Foulke led the pledge of allegiance to the flag, and singing of the Star-Spangled Banner and "America" was led by Mrs. W. H. Luikart.

Hostesses for the afternoon were Mrs. F. G. Simonton, Mrs. Wyatt Campbell, Miss Mary Browne, Mrs. Lawrence Byers, Mrs. J. H. Filby, Mrs. J. F. Rentz and Mrs. H. M. Ringer.

Next meeting of Lawrence chapter will be Saturday, April 3, in The Castleton when Mrs. James D. Crawford will show colored films.

THE WORLD AND THE MUD PUDDLES

(Continued from Page Four)

cities in one blow. Scientifically, the chief ambition of mankind seems to be to outdo each other in creating new agents of destruction. Is this "intelligence?"

Millions in Want

In Europe and China, if reports are not exaggerated, hundreds of millions of human beings, a large proportion of them little children, are suffering from want and physical degeneration due to undernourishment and exposure. We are spending several thousand times as much to pay for past and future wars as we spend to fight the arch enemies of human life—heart disease and cancer. Mere money cannot accomplish anything, of course, but it may be disconcerting to inquire if the two billions spent to develop the atom bomb, devoted to humane research, might not have developed methods of dealing with these two menaces to health and happiness.

Intelligence has to be measured by results. Some of our arch criminals have been among our best educated men and women, but they have been a liability rather than an asset to the race. Indeed, one may be pardoned for wondering if our emphasis on intelligence has not tended to produce as much misery as it has alleviated. Beneficial intelligence has to be flavored with humane understanding. Our trouble seems to be that with all the multiplication of knowledge we somehow, in common with other peoples, have neglected the admonition of the maker of Proverbs:

"Wisdom is the principal thing; therefore, get wisdom; and with all thy getting, get understanding."

By this test, it seems that we hardly deserve a high rating as peoples of intelligence.

THE PARENT PROBLEM

(Continued from Page Four)

neighborhood merchants in favored economic areas of the prevalence of shoplifting in their stores; from teachers, Sunday school teachers, and various leaders of youths in choice economic areas, of the growing lack of self-control among children of the well-to-do.

Now most of our social uplifters come from comfortable homes. Unselfishly these persons serve on all sorts of social welfare boards. Generally they assume that all we have to do is "to improve the conditions of the poor" and "we will have delinquency and crime well checked. It's amazing how many a club woman and socialite in the United States is over this matter. Blinded by the log in her own eye she tries to poke out the speck she sees in her underprivileged neighbor's eye. See what a big lumber business some of these persons could do in their own homes and communities!

Adult Self-Control
It is my guess that adult self-control among the well-to-do has been declining at a more rapid rate than among the general population. I'm very sure that self-control among most children of these persons has declined in recent years faster than among all children.

As I have said before, I think

one reason is obvious. When the philosophy of excessive self-expression got going in this country, its first and most fervent recruits were among the well-to-do and socially elite. You see, it gave them a tremendous feeling of superiority. "The poor and ignorant have to discipline their children," they would say. "They can't give these children good environment and prestige of social status. But our children can have freedom and rich personality. If they go astray a bit they just naturally will come back to good conduct and citizenship, thanks to their family influence."

Ray Of Light

I do see one ray of light shining through the shadows—many of our most highly educated parents among the well-to-do have been disillusioned and are recruiting disciples of a common sense philosophy. This philosophy is that the child should learn from his very early years the unambiguous meaning of No. (My bulletin, "How Teach Tot Meaning of No" may be had in a stamped envelope. That they also need to have practice at doing many useful things they would rather not do.

The philosophy of no restraint and no requirement has passed its peak in the United States. But the practice of this philosophy will go on for some years and "the worst is yet to be," resulting inevitably in more broken homes, more mental ill health, more delinquency and crime. My bulletin, "Juvenile Delinquency Can Be Curbed" may be had in a stamped envelope by writing me at 235 East 45th street, New York, N. Y.

The mongoose destroys not only the eggs and young of the most venomous snakes, but the serpents themselves. It is not immune to the snake's poison, according to the Encyclopedia Britannica, but by its agility and quickness of eye, it avoids the fangs while fixing its teeth in the back of the reptile's neck.

WEDDING CLOTHES FOR BRIDEGROOM

"Please tell us how the groom and his attendants should dress at a church wedding in April. The bride will wear a white gown with a finger-tip veil. She will have a maid and two attendants. It will be a noon wedding."

Answer: At a formal morning or afternoon wedding at which the bride wears traditional bridal dress the groom and his attendants, as well as the bride's father, should wear formal daytime clothes: Cut-away coats, striped trousers.

This is the correct attire whether the wedding takes place in the morning or afternoon, whether the bride wears white and a veil or formal afternoon clothes and a hat and whether the wedding takes place in church or in the bride's home.

In small and country towns where conventions are not so strictly adhered to and at any wedding that can be called simple, each man in the bridal party may wear: A well-tailored navy blue sack suit, white shirt and collar, a four-in-hand tie, black socks and shoes and a boutonniere. If the wedding takes place in mid-summer at the seashore or in the country or in a garden the men may wear white flannels or white linen suits.

Formal evening clothes are not correctly worn until after 6 p. m. At formal evening weddings, white dress for men is required. White tie, swallowtail coat, etc. Dinner jackets (tuxedos) may be worn at informal evening weddings.

It is important that the bridegroom, all of his attendants and the bride's father should be dressed alike.

Question: Recently I received a marriage announcement of an old school chum. Should I send a wedding present or not? Is it proper to send a gift upon receipt of an announcement?

Answer: It is perfectly proper to send a gift upon receipt of an announcement. But it is not necessary. Relatives and close friends, usually upon the announcement of a quiet wedding, send the bride a gift. Acquaintances do not.

Miss Marrel will promptly mail personal answers to questions for any reader enclosing a self-addressed, stamped envelope.

STONE OIL

Stone oil is another name for petroleum. It is pumped out of the ground. It is a mineral oil.

It is a wonderful thing and is widely used in industry.

Vegetable oil comes from plants. There are many different kinds. Olive oil, cotton oil, coconut oil, peanut oil and corn oil are a few of them.

Mineral oil is not used for food by the body. Sometimes it is used as a lubricant.

Vegetable oils and animal oils or fats are valuable as food. Their food value is measured in calories. A little fat goes a long way. Fat provides a lot of nourishment in a small package.

Fat people should be sparing of the amount of fat they eat. Obesity is a dangerous condition. It is better to prevent it than to cure it.

Col. Mitchell Has Unit Inspections

Units Of 229th Field Artillery Getting Ready For Federal Inspection In April

Lt. Col. George F. Mitchell, commander of the local 229th Field Artillery Battalion, recently inspected the local National Guard units. This was a preliminary to a similar inspection which will be conducted by the Second Army Officers the first part of April.

All units were given "open ranks" from their regular formation and presented a snappy appearance as the Colonel, assisted by Lt. Robert Johnson, checked on the men's equipment, uniform and general military appearance and bearing. As Colonel Mitchell went down the ranks, he also quizzed the men on the many pertinent military phases which they may encounter from the Second Army Officers next month.

After the inspection of personnel, Colonel Mitchell checked on all equipment, supplies and the various departments of the Armory to make sure that everything is up to standard for the annual Federal inspection.

Any young man, between the ages of seventeen and thirty five, is welcome to visit Cunningham Armory, at the corner of Frank and Haron avenues, to inquire into the advantages of the local National Guard units.

Urges Further Income Taxes Simplification

WASHINGTON, March 8.—(INS)—Internal Revenue Commissioner Schoeneman warned the Senate finance committee today that the six and a half billion dollar House tax cut bill would destroy much of what has been done toward simplifying income taxes.

Schoeneman urged the committee at hearings on the bill to remove the complicating factors from the House measure. He declared that unless this is done severe administrative difficulties would develop. He said: "Every effort should be made to achieve further simplification rather than further complication, especially for the taxpayers in the lower groups, as a means of encouraging rather than discouraging voluntary compliance with the tax laws."

Schoeneman took no position on a tax cut, explaining that this question "is no within my province."

Disabled Veteran Kills His Mother

WILKES-BARRE, Pa., March 8.—(INS)—A disabled navy veteran who struck his mother with a hatchet because she "was too good to live" was held at the Wyoming State Police Barracks today on a murder charge.

Police said William Davis, 26,

of Kingston, attacked his mother, Mrs. Iva Davis, while she was listening to the radio last night. He then went to the home of a clergyman and announced what he had done, they added, and the clergyman took him to the police station.

Mrs. Davis, allegedly "worshiped" by her son, died at the Wilkes-Barre General Hospital shortly after the assault.

Her husband, Daniel Davis, was at work in a repair shop when the tragedy occurred.

MURPHY'S

I SHOULD HAVE TO WRITE IT 100 TIMES:

'Used Fats Are Still Badly Needed!'

It is hard to realize, but it's all too true! We're still fighting the worst shortage of fats and oils the world has ever known. Our government says there simply isn't enough to go around. One way we can help keep this supply from getting even lower is to turn in our used fats.

Remember during the war, how you melted down fat trimmings, skimmed gravies... really scraped your pans? Those tricks still work... still give you a worthwhile extra supply. And even if you re-use your fats for cooking, there are always a few drops left to save.

You pick up a nice little piece of change, too... when you turn in your used fats, remember. They're the only kitchen waste you can turn into cash... and it helps, these days of high food costs. So please... keep saving...

Union Firemen To Meet Tuesday

Meeting Advanced From Wednesday Because Of Lawrence County Assn. Meeting

Union township volunteer firemen will have their regular meeting in Union high school on Tuesday evening, President Francis McPheeters announced today.

The meeting will convene at 8 o'clock.

The meeting date was changed because of the Lawrence County Firemen's Association meeting scheduled for Wednesday evening.

Mr. McPheeters stated that the new fire truck has been paid for with funds on hand, and money is now being sought with which to buy additional hose and to erect a new fire station.

In 1940 the total value of the United States farm plant in the form of land, buildings, implements, machinery and livestock, amounted to more than forty-one billion dollars.

MIXED GRILL

A sizzling hot mixed grill, cooked in the broiler, makes an appetizing quickly prepared main dish for a winter meal. Broiling is a familiar way of cooking tender steaks and chops, but its possibilities for less expensive meats and fish, and for appetizing combination platters often are overlooked. Such cooked items as carrots or sweet potatoes, cooked dried prunes, canned peaches or pineapple slices can be grilled with the meat to make a colorful platter.

Foods for broiling should be tender and also thin enough to cook through in a short time. They should contain enough fat and moisture to brown well without drying or hardening in the dry heat of the broiler. A little fat may be brushed on or placed on top of foods which lack it. Fish cookery experts advise that the more oily fish, like mackerel, broils more successfully than dryer lean fish.

In broiling the cook needs to adjust the heat and turn foods so that they brown to her taste on one side or both sides. No hard and fast rules about time and temperatures can be given because broilers differ and foods differ in the time they need to cook. In general, it is wise to have the pan hot when the foods go in, to use moderate heat until foods heat through for the desired browning. Heat for the desired browning. Metal cooking-and-serving platters with detachable handles, for sale generally in stores, are ideal for mixed grills because they save time and extra dishes and bring the food piping hot to the table with no loss of juices and drippings.

Here are three mixed grill menus, suggested by the cookery expert.

1. Flat hamburger patties; cooked dried prunes; halves of tomato with seasoning and a bit of fat on top; lengthwise halves of banana with a little lemon juice, powdered sugar and fat on top.

2. Thin slices of ham; slices of cooked sweetpotato, with seasoning and fat added; apple slices (from cored, unpeeled apple) spread with fat.

3. Thin lamb chops or halves of tender lamb kidney with added fat; lengthwise halves of cooked carrots with fat and seasoning added; canned pineapple slices or canned halves of peaches.

Other items for grilling are: Cheese sandwiches, halves of green pepper, parboiled and then stuffed with cheese and bread crumbs; slice prepared luncheon meats; liver, sliced bacon; mushrooms on toast. The choice depends on the pocketbook, what the market offers, and what the family likes.

Gould Heiress Preparing To Face New Battle

PHOENIX, Ariz., March 8.—Gould heiress Gioia Grinditch, victor in a sensational divorce battle, girded today for her next encounter with her Philadelphia socialite husband.

She got set to defend herself against a \$250,000 damage suit leveled at her in federal court by the husband she defeated in divorce court, William Henry Grinditch, Jr.

Frankly dreading another tilt at law, the heiress commented: "I would like to think that things ended with the judge's decision (in the divorce case), but I'm afraid he means to go through with it. Naturally, I dread further publicity."

Blake Brophy, young "he-man of the west" who figured so prominently in the purple-covered diary that was the sensation of the divorce trial, is a co-defendant with Mrs. Grinditch in the federal suit.

Grinditch charges that his now ex-wife and Brophy contrived "to defraud plaintiff of his rights as a husband."

Trial date for the damage suit has not yet been set.

The heiress was granted the decree and full custody of the children, William Henry Grinditch III, 3½, and Gioia Gioia, 1½.

Judge Johnson, in rendering his decision, made no comment whatever on the diary around which the bitterly-fought case revolved.

Draft Eisenhower League Remains

Will Center Support On Other Candidates In State Election

OTHER NEWS OF STATE AFFAIRS

HARRISBURG, March 8.—(INS)—The Pennsylvania Draft Eisenhower league has abandoned its hotel headquarters for economic reasons. The organization had reduced its operating space from a corner suit spreading out on two sides to one small bedroom following General Dwight D. Eisenhower's withdrawal from the political scene. But league activities will continue, according to Mrs. Helen U. Loewen of Harrisburg, vice chairman. Specifically, she means that "grass roots" opposition to old guard Republicans prior to the April 27 primary will be encouraged and aided in certain sections of the state. Mrs. Loewen already has found a candidate for state senate in opposition to Sen. M. Harvey Taylor, GOP state chairman, and expects to round up a Dauphin county slate for the house and for delegates to the GOP national convention. The league, founded by new guard followers of William S. Harmon of Philadelphia has declared the intention of seeking candidates pledged to support a popular choice for GOP presidential nominee determined at the presidential preferential election, coincident with the primary.

Newsmen were treated to a flesh and blood "Bergen-McCarthy" performance during a press conference with Democratic leaders after they endorsed Sen. William J. Lane for state treasurer. State Chairman J. Warren Mickie was spokesman. Mayor David L. Lawrence of Pittsburgh sat in the background and prompted. Mickie started to explain why Lane was chosen over Frank Boylan of Carbondale but was skillfully guided by Lawrence into a discussion of "geographical" reasons. On other touchy questions, Lawrence didn't attempt ventriloquism, but bluntly stated that Mickie didn't want to answer.

The state election bureau once again is swamped with work. True to form, candidates for nomination in the April 27 primary election waited until the last week to file petitions. The bureau receives about 100 petitions daily. Some candidates wait until the final day (March 8) and then file with a ceremonious gesture. The Democratic state committee will file sufficient petitions to place President Truman's name on the preferential ballot. On the final day, Mrs. John Zimmerman, head of the bureau, will have her usual experience with some candidates attempting to file petitions accompanied by cash. Despite oft-repeated rules that petitions must be accompanied by certified checks, many candidates try to submit cash. They argue, plead and cajole but Mrs. Zimmerman points out that the rule is inflexible.

Cumberland county Republicans, brawling among themselves during the 1947 primary contest, are in the midst of another struggle to fill out a slate for the coming primary election. Sen. George N. Wade of Camp Hill, who tried to placate two warring factions and was left out in the cold, has filed for nomination for re-election. He is expected to be opposed if a candidate can be chosen suitable to all counties in the four-county district. It embraces Perry, Cumberland, Juniata and Mifflin. Democrats have completed their slating in the district. John Mann, Juniata county resident, has been endorsed for the senate.

The twinflower is a hardy, trailing evergreen plant. It is a favorite in rockeries and thrives best in open, peaty soil and in shade. It has dainty, bell-shaped nodding pink and white fragrant flowers upon erect, slender stems.

Warns Congress Military Aid Is China's Need

WASHINGTON, March 8.—(INS)—Clarence E. Gauss, former U. S. Ambassador to China, warned congress that without American military assistance the proposed 570 million dollar Chinese aid program may become "operation rathole."

Gauss added that if the United States extends military aid to China "it is going to be exceedingly expensive." But he declined to estimate just how expensive he thought military aid would be.

The ex-ambassador testified before the House foreign affairs committee shortly after Lowell R. Rooks, UNRRA Director General, urged that American troops be sent to China to "equip, train and direct" the forces of Generalissimo Chiang Kai-Shek.

Communists Get Aid
Gauss asserted the Chinese Communists are receiving outside aid in abundance for which they will have to pay later through the nose... aid from their neighbors.

Gauss said that economic aid without a military program would be merely "relief while the Communists are taking over China."

The diplomat, who spent 31 years in Far Eastern countries, added:

"I have considerable doubt as to the possible effectiveness of your Chinese aid program. I'm disposed to ask whether it will not be operation rathole if confined purely to economical proposals."

Military Training Hearings Will Open In Senate At Once

WASHINGTON, March 8.—(INS)—The Senate Armed Service Committee voted unanimously today to open hearings immediately on universal military training.

The action came after the committee heard the four armed service secretaries and three chiefs of staff declared in a closed door session that UMT is necessary.

Broad Hearings
Chairman Gurney (R) S. D. announced that the hearings will be broad enough to include the whole general subject of national defense with a UMT bill to be written after the hearings close.

Gurney said that he believed of the eight all members of the committee who voted for hearings today are convinced that "passage of UMT has the best chance of maintaining defenses without disrupting our fiscal program in the way any alternative program would do."

Under the plan asked by armed service officials, UMT would require 880 million dollars in the next fiscal year while the reserve program would cost 661 millions—a total of one billion 541 millions.

Says New Bomb Makes U.M.T. In Nation Obsolete

WASHINGTON, March 8.—(INS)—Rep. Engel (R) Mich. disclosed today that the atom bomb which sank two battleships, an aircraft carrier and numerous other ships during the Bikini tests in 1946 contained an explosive "that a man could carry in one hand."

Engel was a congressional observer at the tests at which two A-bombs were set off. He is chairman of the House subcommittee on army appropriations.

Engel, who was intimately connected with the development of the atomic bomb, declared that the new weapon made Universal Military Training "as obsolete as a Civil War cannon."

In a speech prepared for House delivery, he told what he had seen at the mid-Pacific tests, where, he stated, one bomb sank the 29,000-ton Battleship Arkansas, the 45,000-ton Japanese Battleship Nagato, the 33,000-ton Carrier Saratoga, army transports, destroyers and submarines.

He added: "All this was done, I am told, with an amount of explosive that a man could carry in one hand."

Congregationalists Considering Merger

Action Discussed Sunday Evening At First Congregational Church; Two Questions Submitted

At the Sunday evening service, there was a large attendance at the First Congregational church, East Reynolds street, when there was a discussion of action on the proposed merger with the Evangelical and Reformed Church in America.

Following a presentation of the issue by the pastor, Rev. Thomas J. Jones, Henry T. Jones, executive chairman of the church, presided. The following tellers were named, who will serve until the completion of the merger: Carl Turner, and Joseph Baskerville.

A discussion preceded the distribution of the ballots. It was finally agreed that two questions be submitted to the National Office of the denomination, dealing with the status of churches reserving the right to remain independent, and also concerning the future of the Congregational Mission Boards.

The ballots will be returned next Sunday, and replies to the questions submitted, will be presented to the congregation.

There was strong evidence for the uniting of the Protestant churches, to face the crisis of nationalism, which now menaces the world. Those who participated in the discussion were D. O. Davies, Henry Davies, and Griff Thomas, the latter presenting the published expressions in the denominational papers, concerning the difficulties arising out of the proposed merger.

The votes already tabulated in the New York office, show a strong trend toward the merger.

Injured Man Found On Road

He was found lying injured, in Wilson avenue extension, at 8:30 p. m. Sunday, after a woman had telephoned of her seeing him on the ground.

City police notified Sheriff Frank Coen and State police. The man was removed to the hospital in an ambulance.

State police have not yet ascertained how he sustained his injuries.

Probe Death Of Mother Of Three In Philadelphia

Mrs. Marjorie Booth Hiestand, 40, Dies In Hospital Apparently From Sleeping Pills

PHILADELPHIA, March 8. — (INS)—An autopsy was scheduled today in the death of a socially prominent mother of three who died in a hospital one hour after she was found unconscious in her mid-Philadelphia hotel suite.

Police identified the woman as Mrs. Marjorie Booth Hiestand, 40, daughter of Charles D. Young, of Whitford, Chester county, a vice president of the Pennsylvania Railroad.

Police said the woman apparently died of an overdose of sleeping pills. They said a dispensary bottle which had contained 20 tablets was found empty in the suite.

Registered With Man

A hotel spokesman told police that Mrs. Hiestand and a man, later identified by police as John Reilly, of Ardmore, Pa., registered at the hotel last Wednesday as Mr. and Mrs. J. B. Hiestand.

Police said the woman was divorced from Drew W. Hiestand, a Lancaster county gentleman farmer, in May, 1947. The couple's three children live with their father.

Mrs. Hiestand's first husband, Charles T. Otto, of Philadelphia, whom she married in 1932, was killed a year later in an airplane crash into Lake Michigan.

Operated Book Store

Reilly was released after questioning by police. He identified himself as an appraiser, but refused to discuss Mrs. Hiestand's death with newsmen.

A graduate of Bryn Mawr college, Mrs. Hiestand had lived in a private home in Ardmore. She operated an Ardmore book store for the past 10 years.

BRINGING UP FATHER

Believe Hospital Stickup Was Work Of Inside Gang

PITTSBURGH, March 8. — (INS)—Pittsburgh detectives today were working on the belief that the theft of the Allegheny General hospital's payroll last Friday was an inside job.

Officers stressed this fact as they checked the records of employees who had worked at the hospital in the last six months. They believe that only persons familiar with the details of the hospital could have carried out the holdup so speedily and successfully.

Not Only Clue

After a more thorough check on Saturday, U. R. Knox, chief accountant of the hospital, said the loss was closer to \$9,400 than the \$14,000 amount he reported earlier.

The total payroll amounted to \$23,000 but Knox figures \$14,000 had been paid before the bandits struck.

A hat with the initials "H. G. W." is the most tangible clue police have come across. It was left behind by the fleeing robbers.

Draft New Proposal For Ending Strike

PITTSBURGH, March 8. — (INS)—The executive board of local 128, AFL Teamsters, apparently torn by discussion, today was attempting to draft a new proposal to settle the three-week-old strike of 1,100 Pittsburgh Yellow Cab drivers.

A stormy meeting in Mayor Lawrence's office Sunday brought out the fact that Union President George Steding had prevented the men from accepting a previous company proposal last week.

Objects To Wording

Steding is said to have objected to the words "discipline" and "discharge" in the proposed working rules. With Mayor Lawrence acting as a "third party" in an effort to settle the strike, Sunday's meeting resolved itself down to an interpretation of those two words.

The mayor finally suggested the strikers draw up a proposal on working rules they might prefer.

What you will see and learn...

At the meeting Wednesday night at the Castleton Hotel you will first hear a talk by Percy H. Whiting, managing director of the Dale Carnegie & Co. of the United States and Canada, who is Mr. Carnegie's personal representative. He will briefly explain the course. Then recent graduates of the course will tell, in two minutes each or less, why they took the course and what they got out of it.

Next the graduates will give a demonstration of impromptu speaking—the audience will pick the speakers and select the subjects.

Then, in order to demonstrate how easy Dale Carnegie Institute instructors make it for frightened beginners to make their first talks in public, volunteers—people who have never made a successful speech in their lives—will come to the platform and talk. No one is REQUIRED to come to the platform—this speaking is on a completely voluntary basis—so don't stay away because you are afraid that you will be forced or even over-urged to speak.

As visitors leave, they will have an opportunity to talk with graduates and to ask them questions about the course and what people may hope to gain from it. This will prove an intensely interesting evening and will surely enable you to get answers to all your questions about the course.

STEVE JOHNSON: Foreman

STEVE JOHNSON was an alert, redheaded youngster, just out of high school, when we took him on. The only thing he knew about telephones was that they were a swell invention for making dates.

But Steve Johnson caught on fast. He was eager to make good, and he could ask questions as fast as his foreman could answer them. He was attentive at every training demonstration, and he had a native curiosity that pumped practical information into his mind. Furthermore, he knew that a lot of money was being spent to train him and he made up his mind to cash in on his education.

So Steve Johnson is a foreman today, and just about as happy in his work as a man can be.

Steve's experience wasn't unusual in any way. On the contrary, it was typical of the telephone business, for the management of this business is simply employees at different stages of their careers.

It is these employees—telephone men and telephone women—who organize, plan, and direct the infinite variety of operations that provide you with the best possible telephone service at the lowest possible cost.

Acute Shortage Of Doctors In Armed Services

Medical Men Badly Needed
By Armed Forces, Critical
Nurse Shortage Too

WASHINGTON, March 8.—(INS)—A ranking medical officer warned today that a shortage of doctors in the armed services is getting worse and may endanger the health of the American soldier and sailor.

Rear Admiral Joe T. Boone, executive secretary of the Armed Services committee on medical and hospital services, made the statement following a tour of Army, Navy and Air Force hospitals throughout the nation.

The committee is looking into possible administrative changes in the medical system of the services as a result of the unification law. Boone declared that the shortage of doctors "is very serious in the Army and Navy and is getting worse."

The admiral explained that approximately half of the military doctors now on duty will leave the service by July 1, 1949 when the Navy's V-12 and the Army specialized training program ends.

Under the plan, young men were brought into the service and trained as doctors.

Boone said the Navy's staff of doctors will drop from 2,900 to about 1,482 while the Army will lose about three thousand.

The admiral, who also said that the nurse corps is up against the same situation, declared that some of the trainee doctors might remain in service but he is pessimistic that there would be any great numbers.

Boone pointed to the attractive salaries paid civilian doctors as against the relatively low scale of the military and asserted that probably only "a war or a depression" could bring many into the armed services.

Hadassah Donor Plans Progress

Program Will Be Presented At
The Castleton On Sun-
day, March 21

Plans for the twenty-fifth anniversary donor dinner of the New Castle Chapter of Hadassah are progressing steadily and successfully it was announced by the general chairman, Mrs. Jack Conn.

Fairmont avenue, at a meeting conducted recently in her home. This function, a milestone in the life of the local chapter, which culminates the annual donor campaign for the Hadassah Medical Organization in Palestine, will take place at the Castleton hotel, Sunday evening, March 21.

Because of the great emergency in the Holy Land, where despite Arab sniping and inadequate British security, the lives of inhabitants have been greatly endangered with many casualties resulting, Hadassah has launched an emergency campaign to secure a 50% over-subscription for its projects in Palestine.

Members and friends in the community have responded wholeheartedly to this urgent call. The silver souvenir program, which will be presented at the donor dinner will testify eloquently to the understanding of the local people.

At a meeting of the program committee held at the home of Mrs. R. Rubenson, Laurel avenue, co-chairman, held the latter part of this week, and program chairman, Mrs. Hyman Frank, have announced the two main features for the silver anniversary dinner.

The New Castle Chapter is fortunate to have as speaker that evening, Mrs. Irma Lindheim of New York City, former National President of Hadassah, and one of five honoring vice-presidents author of the book, "The Immortal Adventure," published in 1928.

As guest vocalist, they will be entertained by Leonard Lawrence of Pittsburgh, Pa., who toured the battle fronts and field with Irving Berlin's "This is the Army." Other fine numbers will be featured in an evening worth remembering.

Reservations for the dinner are being received by Mrs. Abe Levine, Leisure avenue chairman; and her co-chairman, Mrs. R. Rubenson, and Mrs. Abe Cohen, president. Mrs. Irving Rosen, heading the "Young Helpers," and Mrs. Frank Haber in charge of decorations, are also contributing much to the success of the local annual function.

Garden Notes

Fertilize shrubs, lawn, trees and flower borders this spring. This will make all the difference in the world in their growth and appearance.

Lettuce, peas, onions, beets, cabbage and spinach can be planted as soon as the ground can be worked. Seeds of peppers, corn, tomatoes, beans, melons and cucumbers only are wasted if planted before warm weather really arrives.

Thin spots in your lawn should be raked and seed and fertilizer applied now, if it hasn't already been done.

If you have not already sprayed your fruit trees with a dormant spray, do not put it off any longer. Spraying should be done on mild days when the temperature registers 40 degrees or higher and there is no wind.

If grass has heaved out of the ground in little hummocks, roll now to push it back into the soil before the roots dry out. You may have to roll again later on, if more freezing lifts it.

If the weather becomes mild, the mulch on early sprouting perennials should be loosened or lightened. The coarse mulch material can be kept for the compost heap, but the fine residue should be dug in around the plants later.

Lenten services, which have been in progress for several weeks at Trinity Episcopal church, will continue with evensong Wednesday evening at eight o'clock. Members of the Women's auxiliary will be hostesses at a social hour following the sermon. Wednesday's meetings will open with the observance of holy eucharist in the morning at seven o'clock. Junior confirmation instruction class will be conducted at four o'clock. Holy eucharist will be celebrated Tuesday morning at eight o'clock. In the evening at 7:30 o'clock there will be a vestry meeting in North Guild hall.

Holy eucharist will be observed Thursday morning at 10 o'clock. Woman's auxiliary will assemble at the same hour, with a sandwich luncheon at noon and election of officers. There will be an observance of holy eucharist Friday morning at seven o'clock and Saturday morning at eight o'clock. A Lenten service for the church school will be conducted Friday afternoon at 4:30 o'clock.

Pirates To Concentrate On Defense

Bucs To Stress Hurling, Tight Play This Season

By JIMMY JORDAN
(International News Service Sports Writer)

PITTSBURGH, March 8.—Last year the Pittsburgh Pirates finished second to New York in the National league in slugging. They had power to spare. But they wound up in a tie for last place with Philadelphia in the final league standings, anyway.

This year, says the Bucco front office, the program is going to be different. This year, the new manager of the Pirates, Billy Meyer, is going to concentrate on defense and let the power take care of itself.

Pitching is the theme in the Bucco training camp at Hollywood—pitching and other defensive tactics.

Meyer has only six pitchers who finished out the season last year in Forbes Field, and among them they won but 40 games. He has but one of last year's infield remaining—Frankie Gustine. He has but three of the 1947 outfield on the squad.

Big Job Ahead
Meyer has a complete rebuilding job ahead of him, and he tells the Bucco office that when he completes it, he'll have a better team than that which wound up at the bottom of the ladder last fall. How much better, he won't assert—just better, he says.

As of right now, he doesn't know definitely who he'll play. But it is a cinch National League fans will see and almost entirely different lineup when the season opens April 19.

His pitching staff may be either a bunch of veterans or some of the youngsters who came up this year, along with a couple of acquisitions from Brooklyn and one from Cincinnati.

He has the veterans Tiny Bonham, Kirby Higbe, Fritz—old folks—Ostermiller, Mel Queen, Elmer Singleton and Nick Strincevich left over from 1947. He has Bob Costello, the pride of the Pacific Coast League, up from San Francisco where he won 23 and lost eight last year.

There's Hall Gregg and Vic Lombardi from Brooklyn, and Elmer Riddle, recovered from a sore arm that bothered him in Cincinnati.

Bums Contribute
Brooklyn also has contributed handsomely—at Branch Rickey's price—to the infield. Ed Stevens, up from Montreal, apparently has the inside track for first base. Romanus Bagall, another former Brooklyn chutney, up from Ft. Worth, may be at second, and Stan Rokjok, from Brooklyn, will be at shortstop. Gustine seems to be a fixture at third.

In the outfield, Ralph—51—Homers Kiner will be in left field. Johnny Hopp, who came from Boston in a trade for Jim Russell, probably will be in center, with either Dix Walker—another Brooklynite—or Wally Westlake in right.

The catching job is a tossup between Eddie Fitzgerald, who batted .363 and fielded .975 with Sacramento last year, and Clyde

Kluttz, who was the Pirate regular last year when not sidelined with injuries.

But Meyer has a bunch of other rookies in there who may take the place away from the established regulars of yesteryear—Pitchers Cal McLish, Steve Nagy and Jim Walsh, Catchers Roy Jarvis and Bill Herring, Infielder Pete Castiglione and Joe Bockman, and Outfielders Joe Grace and George—son of Muel—Hass.

As Meyer says: "We can't go any further down the line. We should start climbing from here. These youngsters are just the guys who may do it for us, too."

SAN BERNARDO, Cal., March 8.—(INS)—Pittsburgh Pirate baseball fans today had their fingers crossed and were hoping that history don't repeat itself.

Last season, the Bucs outlasted the Cincinnati Reds to win their home opener 12-11 and go on from there to tie for seventh place.

Yesterday, the Pirates opened their exhibition schedule by outlasting the St. Louis Browns 12-11. Bucs fans just can't help themselves from thinking of that victory over the Reds and the dire results that followed. They hope the handwriting isn't on the wall.

The win over the Browns shows that the hitters, as usual, are far ahead of the pitchers at this stage of training. A hit by Wally Westlake in the top of the ninth broke an 11-1 tie and gave the Pirates a win for Billy Meyer.

Joe Bockman with two singles, Johnny Hopp with two triples and Stan Rokjok with two doubles and a single paced the hitting attack for Pittsburgh.

Titans Defeat Tech In F'male

Score Is 69 To 52 Saturday Night, Dembinski Stars With 24, Four Play Final Game

(Special To The News)

NEW WILMINGTON, March 8.—Westminster College rang down the curtain Saturday night on the 1947-48 basketball season with a 15 and 9 record, not quite up to par for the popular hardwood sport at the school. The Titans dusted off Carnegie Tech 69 to 52 with "Chet" Dembinski, playing his best game of the season to record 24 points.

Coach Grover Washbaugh who saw his team this year drop more games than any year since he has been here, started all four graduating seniors, Bill McWhiney, Don Hedderston, Tom Jones and Dean Nelson, plus Dembinski. The four departing seniors added 25 points among them. McWhiney leading with 16. All four young men got a tremendous ovation as they closed out their collegiate careers.

Lopsided Contest
The farwell game of the season turned out to be a lopsided affair, after the first period, that ended 17 to 15 with the Titans leading. At the half the Blue and Whites led 34 to 23, and at the third period 54 to 36. Mike Theodore led the Techs in tallying with 11 points.

STANKY-SANDERS DEAL BEWILDERS BASEBALL WORLD

By LAWTON CARVER
(International News Service Sports Editor)

NEW YORK, March 8.—The weeping Willies of the press box now find themselves with another excellent opportunity to bow their heads into their typewriters over the cold-bloodedness of baseball.

The Brooklyn Dodgers have traded Eddie Stanky to the Boston Braves, causing a great flood of sentiment in the New York area.

Stanky had been built up as a combination John McGraw and Leo Durocher in aggressiveness and baseball savvy.

But somehow or other the historians generally have failed to mention that he isn't really much of a ball player. He's a first second baseman but no hitter at all.

In his few years at Brooklyn he had been built into a five-foot-six-inch institution of sports because of his great ability as a heckler. He heckled umpires and opposing players with equal impartiality and heckled his way to first base whenever he got there.

It was a shocking surprise that the Dodgers would be Stanky to Boston for Ray Sanders, the ailing first baseman, and outfielder Bama Rowell, who was sent to the Dodgers' Montreal farm.

It thus was one of those deals in which everybody seemed to get the worst of it. But Stanky has been asking for it in his salary negotiations and he probably was prepared for it.

Stanky has been a defiant hold-out which is all right. But it wasn't all right with Rickey and Durocher. They both had considerable to say publicly on that subject.

Adding it all up, Stanky wasn't a good enough ball player to stay away with his aggressiveness in the front office, if that was the reason for his being traded.

The answer seems to be that you've got to hit .400 to holler as loud and often as he does and make it stick.

SLUGGERS TO MEET WEDNESDAY NIGHT

Roni and Santafante, Heavyweights, Expected To Provide Thrills

Only two more days remain for 16 fighters, paired in eight bouts, to be featured by a slugfest between Big Sam Santafante of Lowellville and rugged Rizieri Roni, Youngstown, heaviest clash in the Arena Wednesday night.

Four district Golden Glove champions are docketed for action, and it is anticipated by Matchmaker Tommy Leach of the Jefferson A. C. that fistie pyrotechnics will explode in every battle.

Sam and Rizieri boxed a hectic three rounds at Warren, recently, and they were so heated o'er the engagement, they are reported to have participated in a post-battle affair in a dressing-room. Rizieri captured the decision in the legalized battle.

Stopped by Elkins
Santafante has fought here twice having been stopped by Elkins Brothers, and having won the nod in another bout. Rizieri has boxed here often. He was stopped by Brothers, but his other bouts were slam-bang affairs.

The other bouts are:
Tex Martin, Youngstown vs Freddy Mays, Niles, at 135. Martin holds the nove 135 pound GG title of Youngstown district.

Jimmy O'Hara, Youngstown vs George Grant, Niles, at 160. O'Hara is the 160 pound open GG champion of Youngstown district.

McNally to Fight
Frankie Lentine, Youngstown vs Willie Epps, Girard, at 118. Lentine is the 118 pound open GG king of Youngstown district.

Charles Bratton, Youngstown vs Tony Marianna, Niles, at 112. Bratton is the runner-up to Youngstown's open 112 pound champ, Tommy DeSantis.

Cal Hill, Youngstown vs Kid Charity, Warren, at 147.

The Crawford County streams to be stocked with 10,000 trout are Big Sugar Creek, Little Sugar Creek, Stearns Run, Caldwell Creek, McLaughlin Run, East branch of Sugar Creek, East branch of Muddy Creek and Woodcock Creek. Gravel Creek got 600 brownies. . . . From now until the night of April 8, sportsmen will be selling tickets to the show and banquet of the LCSA in the Cathedral. They go for two "bucks". . . . Indications are that the gunshot blasts have forced crows to divide their forces in finding a place to sleep at night. . . . Silencers are not permitted on guns. . . . Art Swiden, Pittsburgh heavyweight, drew a 60 days suspension as the result of his disqualification when he fought Jack Cranford. . . . One of the best trout fishermen Here & There ever knew was the late Wallace (Crick) Wyser. He could catch 'em where they weren't. It seemed. Time and again Here & There watched the late Ted Mayne catch fish with his hands, and for turtle catching. Hal Lawrence always gets some.

Almost two score years have passed since a marathon was held here. Two runners who participated in national events were Frank Jerry and Alfred Snyder. . . . Al Cartwright, former local marathoner, is a Shenango Pottery employe. . . . Claude Mylan, former local outfielder, was one of the fastest men ever to round local bases. He is now in Chicago. . . . Clair Stitt is utilizing his spare time tying flies, as is Walter Stone of the Seventh ward. No doubt, at the Sportsman's banquet there'll be some nifty displays of home-made flies, and all sorts of other sporting equipment. . . . Harry Shoaff, the painter, can spin many tales concerning Knights of the Ring of Yesteryear. Here & There recently listened in to Shoaff and Chauncey Davis discuss some of the city's boxers of years ago, and his education was enhanced. . . . When Dr. H. E. Zerner passed away, the local trotter and pacers fraternity lost a real booster, also the late John Brinton and several others who were always in the judges' stand when trots and paces were conducted at the Fair Grounds track. . . . To keep worms for sucker fishing, or for trout, if you're a worm angler, place old leaves in a box, the bottom of which should have several holes for drainage. The worms eat the leaves, so Bud Fleeger says. . . . Policeman John Gouls quips that the "walking man" is the one who missed the last bus. . . . Steve Bellois and Mickey Doyle, plus Cecil Hudson and Chuck Hunter, battle in the feature two tens in the Cleveland Arena, March 16.

There's Hall Gregg and Vic Lombardi from Brooklyn, and Elmer Riddle, recovered from a sore arm that bothered him in Cincinnati.

Bums Contribute
Brooklyn also has contributed handsomely—at Branch Rickey's price—to the infield. Ed Stevens, up from Montreal, apparently has the inside track for first base. Romanus Bagall, another former Brooklyn chutney, up from Ft. Worth, may be at second, and Stan Rokjok, from Brooklyn, will be at shortstop. Gustine seems to be a fixture at third.

In the outfield, Ralph—51—Homers Kiner will be in left field. Johnny Hopp, who came from Boston in a trade for Jim Russell, probably will be in center, with either Dix Walker—another Brooklynite—or Wally Westlake in right.

The catching job is a tossup between Eddie Fitzgerald, who batted .363 and fielded .975 with Sacramento last year, and Clyde

Glenn Smith, coach of Bellefonte High School's unbeaten wrestlers, is a former Penn State champion.

STANKY-SANDERS DEAL BEWILDERS BASEBALL WORLD

By LAWTON CARVER
(International News Service Sports Editor)

NEW YORK, March 8.—The weeping Willies of the press box now find themselves with another excellent opportunity to bow their heads into their typewriters over the cold-bloodedness of baseball.

The Brooklyn Dodgers have traded Eddie Stanky to the Boston Braves, causing a great flood of sentiment in the New York area.

Stanky had been built up as a combination John McGraw and Leo Durocher in aggressiveness and baseball savvy.

But somehow or other the historians generally have failed to mention that he isn't really much of a ball player. He's a first second baseman but no hitter at all.

In his few years at Brooklyn he had been built into a five-foot-six-inch institution of sports because of his great ability as a heckler. He heckled umpires and opposing players with equal impartiality and heckled his way to first base whenever he got there.

It was a shocking surprise that the Dodgers would be Stanky to Boston for Ray Sanders, the ailing first baseman, and outfielder Bama Rowell, who was sent to the Dodgers' Montreal farm.

It thus was one of those deals in which everybody seemed to get the worst of it. But Stanky has been asking for it in his salary negotiations and he probably was prepared for it.

Stanky has been a defiant hold-out which is all right. But it wasn't all right with Rickey and Durocher. They both had considerable to say publicly on

Major Chance but-

AFTER KNOCKING around the minor leagues for the most part of his career, Don Lang, an infielder, has been given a chance to make the majors—but doesn't know whether to accept. Lang, who hit .346 with Columbus in the American Association last year, has been ordered to report to the St. Louis Cardinals camp at St. Petersburg, Fla., but he hankers to play on the Pacific coast, near his home. KAMARKOVICH IS TRI-STATE SCORING KING FOR CAMPAIGN

PITTSBURGH, March 8.—(INS)—Chuck Karmarkovich, high scoring Waynesburg forward, with 85 points in his last three games, came sweeping from behind to capture the Tri-State basketball scoring title.

Frankie Gustine's pride and joy slipped 360 points through the hoop to set a new Waynesburg mark as well as take down the tri-state title.

Johnny Stozich, Steubenville passer, finished second to "Chuck-in" Chuck with 387 points made in 22 games. Karmarkovich played in 20 contests.

Bethany's Jim Wewhinter, who was 50 points ahead of the Waynesburg ace going into last week, finished third with 353 points in 19 games.
